1. Reference your letter of 1 September 1968. We do try to notify the observer of our findings whenever possible, however, because of the large number of reports and our limited staff we cannot always do so. If you would complete the inclosed AF Form 117 on your recent observation, we will try to identify the stimulus if possible.

2. Thank you for reporting your observation to the Air Force.

Dear Sir,

With one other person I recently saw a very strange object in the sky which I am curious about. I know you have questionaires to fill out, but is it your policy to reply to these, i.e. to report your analysis of the object?

Thank you for your trouble.

Sincerely,
