STATEMENT

We, the undersigned, are members of the 75th Air Depot Wing, Kelly AF Base, Texas. We are mechanics and work near Building 1610 on the Flight Line. We had just finished lunch 14 August 1952 and were lying on our backs near Building 1610 resting and awaiting the end of our lunch break. At 1110 hours, Central Standard Time, we noticed an object in the South sky heading North in a straight flight. The object appeared to be moving at an estimated speed of between 500 and 750 miles per hour at an estimated altitude of between 5000 to 7000 feet. The object appeared oval in shape, and gave off a dull whitish color. A B-36 flew over approximately fifteen minutes later at about the same altitude and we decided that the object was about one third as large as the B-36. We could hear no noise and could see no wings, tail, or any other visible aerodynamic features. We did not see any trail or exhaust. We watched the object fly on it's course about thirty seconds or a minute until it disappeared.

We certify that the above statement is true and correct to the best of our knowledge:
