Dear Sir

You may have this
information for what ever it
may be worth to you
On Aug 16 at about
9:30 PM I saw two objects (or
objects (lights) travel side
by side at a high rate of
speed over Fabiland Fla. It
was a clear night and there
were no sounds of planes. They
were traveling at a high rate
of speed and resembled meteors,
but made a slight turn as if to
turn around and come back but
then went back to a straight
course they were only dots
in the sky. They were
traveling from south to north
