To begin with I saw the lights while I was watching for my wife and I saw it come out of the Oaters office. I was looking up in the sky I first noticed the 3 lights and they were in the form of

O1
O2
O3

I wanted them for more than one the big light was the one and light blinking on it, the next two I called the number 1 light. I started over down toward number 2 light. I thought it was going to hit the number 2 light but it stopped along side of it and stayed there about 5 minutes then it started this light number one and number two started together and it stopped in the below the big light about 100 feet below it and that is where it stopped. by Son and myself watch them. first about two minutes

This night Jan 7th 1956 the sky had several of these lights on it and I was also [illegible]

(over)

Top of a mountain that we have called Round Top the light was a red & a big yellow light that would go off and on and also one off and down, the light was about 50 feet above the Top of the mountain we watched it for about 1 hour and it finally went out

I certify that this is the true and correct statement of the boat log kept by Grandage
