Dear Sirs:

My name is [redacted] I live one mile west of Green Lake, Wisconsin.

On April 27, 1967, at about 10 p.m. [redacted] and I were going to [redacted] house which is one mile west and one mile north of Green Lake. We went west a mile and then turned north on the road to his house. I noticed a bright red object in the western sky. It was near the ground and changing from red to white to orange. It was moving

Sent 104

very slowly to the north and very near the ground. The sky was very clear with no clouds or no wind.

We quickly drove down to [redacted]'s house to get his biscoulars His house is in a small valley that runs east to west. which is open.

Mr. Painter and the three of us watched the byct which was about 3/4 of a mile away. It hovered over the ground and tilted from side to side very slowly and was moving north towards a small wooded hill. Through the binoculars the object was very clear and distinct. It looked like the one I have enclosed in this letter. It also was about the same size when viewed with the binoculars.

The object was changed from red

to orange to white all the time. It tilted once so we could see its bottom which was a bluish color or glow.

When it got near the woods it stopped. Then it tilted toward the north and went down into the woods. It flooded the area where it was with white light. Then it would come out again and moved north and then did the same thing again. The lighted area of the woods could be seen very easily without binoculars.

It finally came upout of the woods again and went over the hill. We got in my car and went north to the top of a hill after we got enough nerve. We could see it still traveling north at tree top level but it was now quite aways away from us. Finally it disappeared from sight.

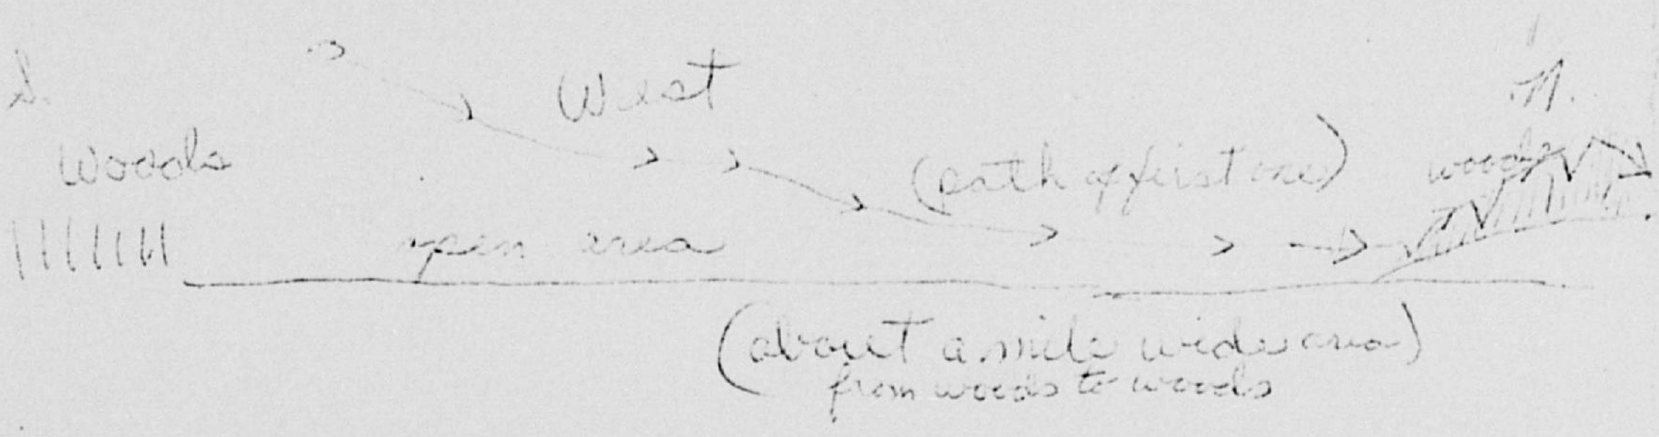
Once when we first saw it the object

came our way and got too close.
for comfort so we ran back to the
house but other than that it kept
going north. We watched it for
about 15 minutes. There was no
moon at the time we saw the object.

I could hardly believe what we
had seen. We could see it so clearly
it was unbelievable. I never thought
I would ever see anything like it

We told a few people but they
wouldn't believe us so we just
dropped it. Then last night we
saw the same thing traveling
west, higher and farther away but
we could still see it with the
binoculars which are 7x50. I
called up Ed Wills and his
father and they came out to
[redacted] to verify it.

This is a close liking of the one we saw. When it turned red the top was bright red and the middle orange. The bottom had a bluish glow. It was the same shape. Please answer



We watched it untill we lost it from sight. It was about 20 minutes because it was moving very slowly and again changing colors but was redder on top. We saw this at about 10 oclock (pm) also and we just happened to notice it in the sky

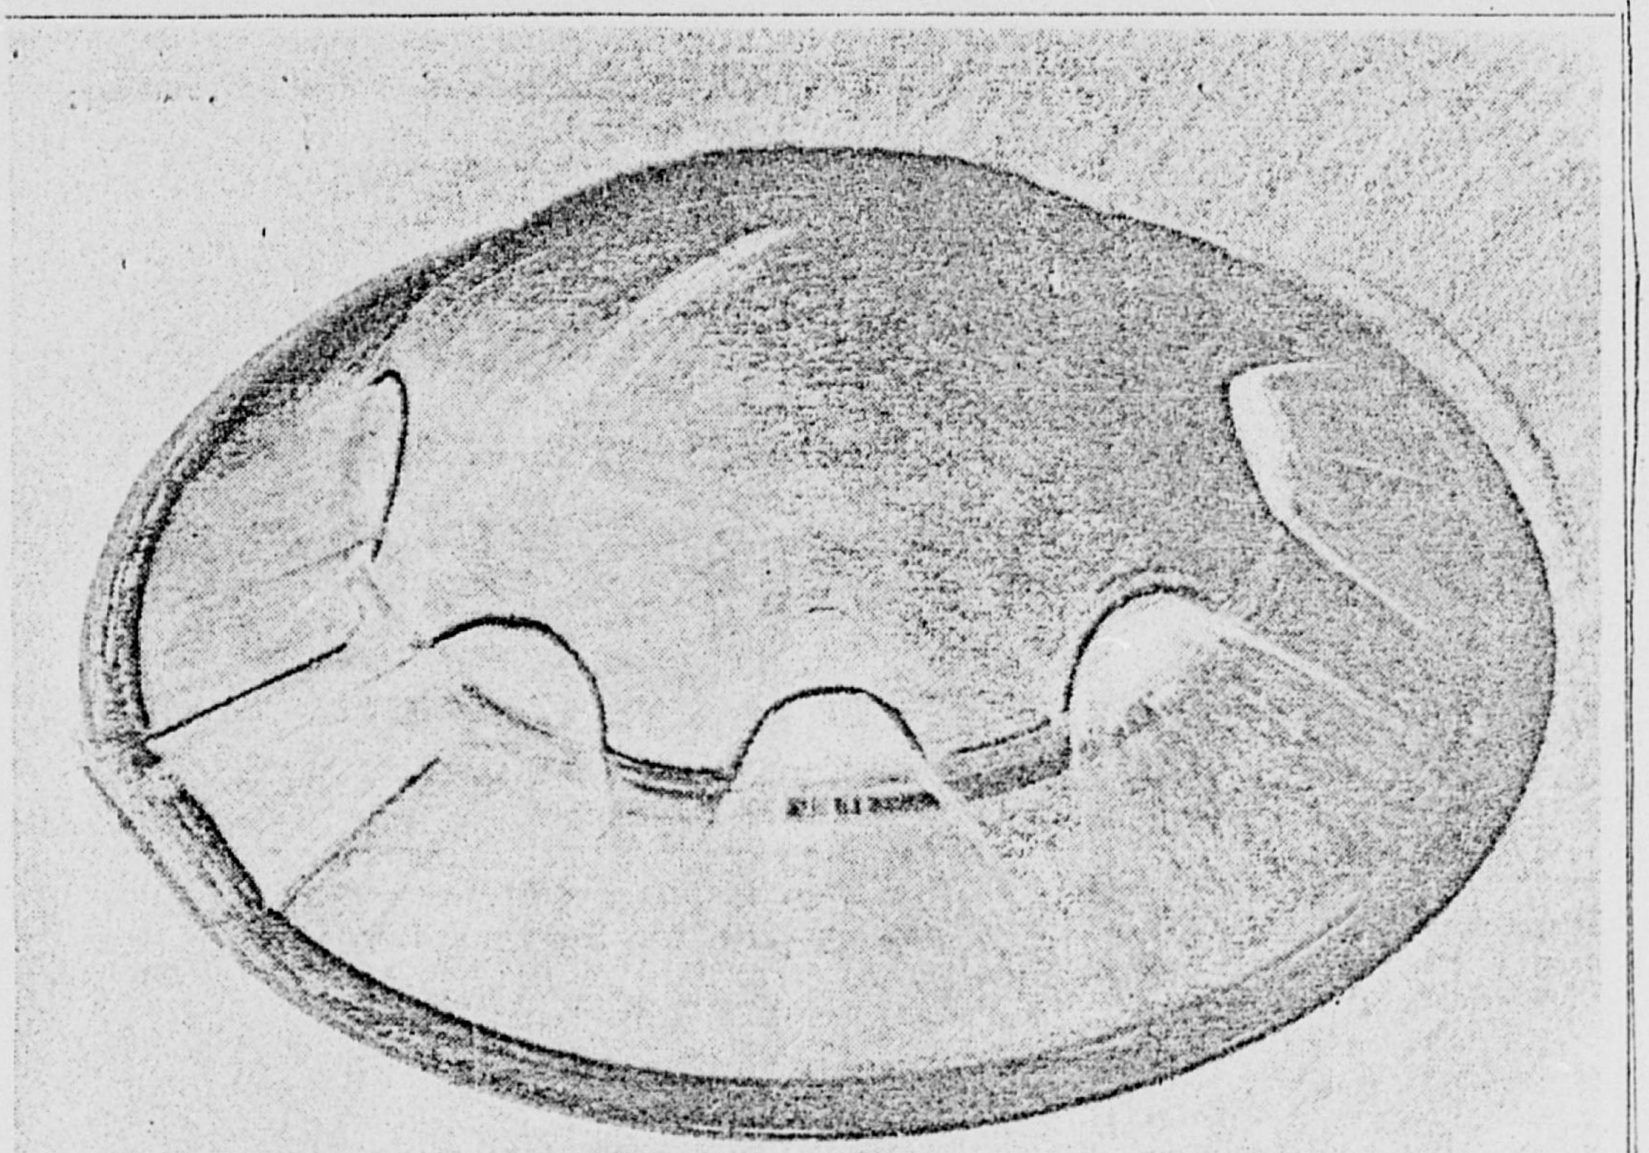
I know you gentlemen are very busy but this is no joke. I was too scared to be a wise guy.

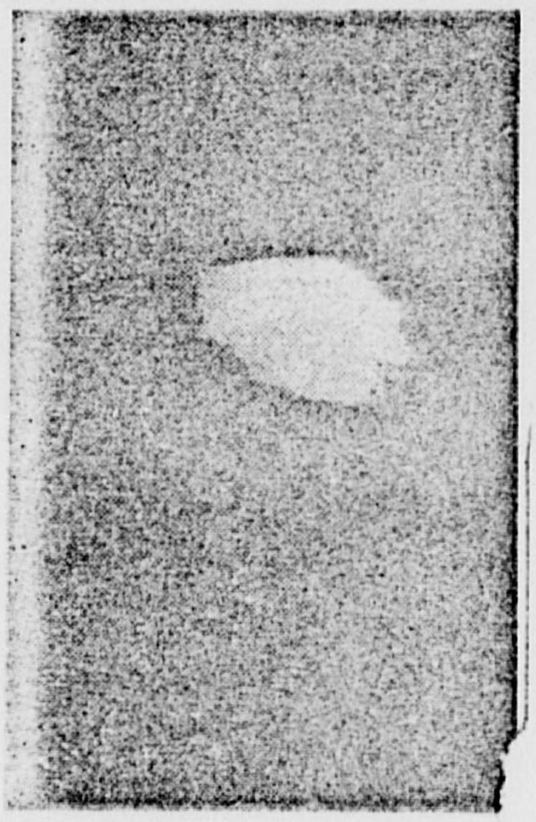
If you could send me any information on what the object could be I would greatly appreciate it. I am very interested (along with other people) in knowing just what it was we saw.

Thank you very much for your time.

Yours truly,

[redacted]





SHOOTS UFO PICTURE ON HUNTING TRIP

Sibley County, Minnesota, deputy sheriff Arthur Strauch took this never-before-published photo, left, of a UFO, while returning home from a bowhunting trip last October along with his son, wife, and a second couple, Mr. and Mrs. Donald Grewe. The sketch, above, of the alleged UFO was made from an aggregate description of the machine, given by the five witnesses, shortly after the prolonged, close-up sighting.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

27 (Day) 4 (Month) 1967 (Year)

2. Time of day: 10 (Hour) 00 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern (b) Central c. Mountain d. Pacific e. Other _____

(Circle One): a. Daylight Saving (b) Standard

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) Green Lake (City or Town) Wisconsin (State or County)

5. How long was object in sight? (Total Duration) 00 (Hours) 15 (Minutes) 00 (Seconds)

a. Certain c. Not very sure
(b) Fairly certain d. Just a guess

5.1 How was time in sight determined? Clock in House

5.2 Was object in sight continuously? Yes ✓ No _____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a) Bright
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you b. In back of you c. To your right d. To your left e. Overhead f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
(c.) Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
(c.) No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

(a.) Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

(a.) Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

(a.) Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

_____

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. Like a bright star
(c.) Sharply outlined
d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	(Yes)	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	(No)	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	(Yes)	No	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	(Yes)	No	Don't know
h. Disappear and reappear?	Yes	(No)	Don't know

14. Did the object disappear while you were watching it? If so, how? The object went down into the woods. Then we could not see the object itself but could see the lighted area of the woods.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): (Yes) No Don't Know. IF you answered YES, then tell what it moved behind: It moved behind the trees in the woods.

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound No sound ✓

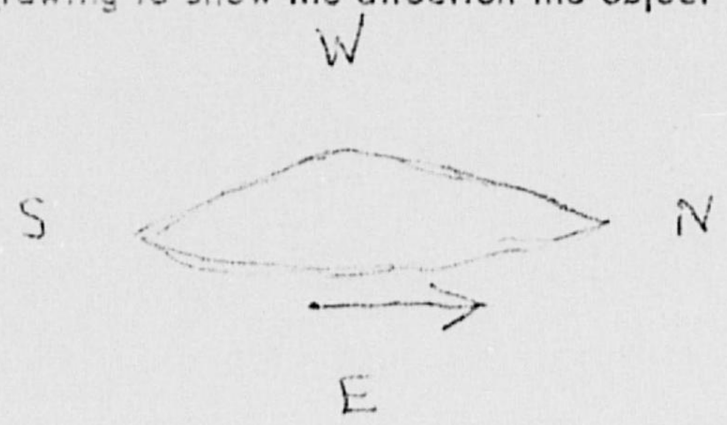
b. Color Bright red to orange to white. Blue bottom.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

About 1/6 of the object would have been covered by one match head ✓

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.



20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? Slow

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? 3/4 to 1 1/2 miles

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c.) Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
(c.) In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

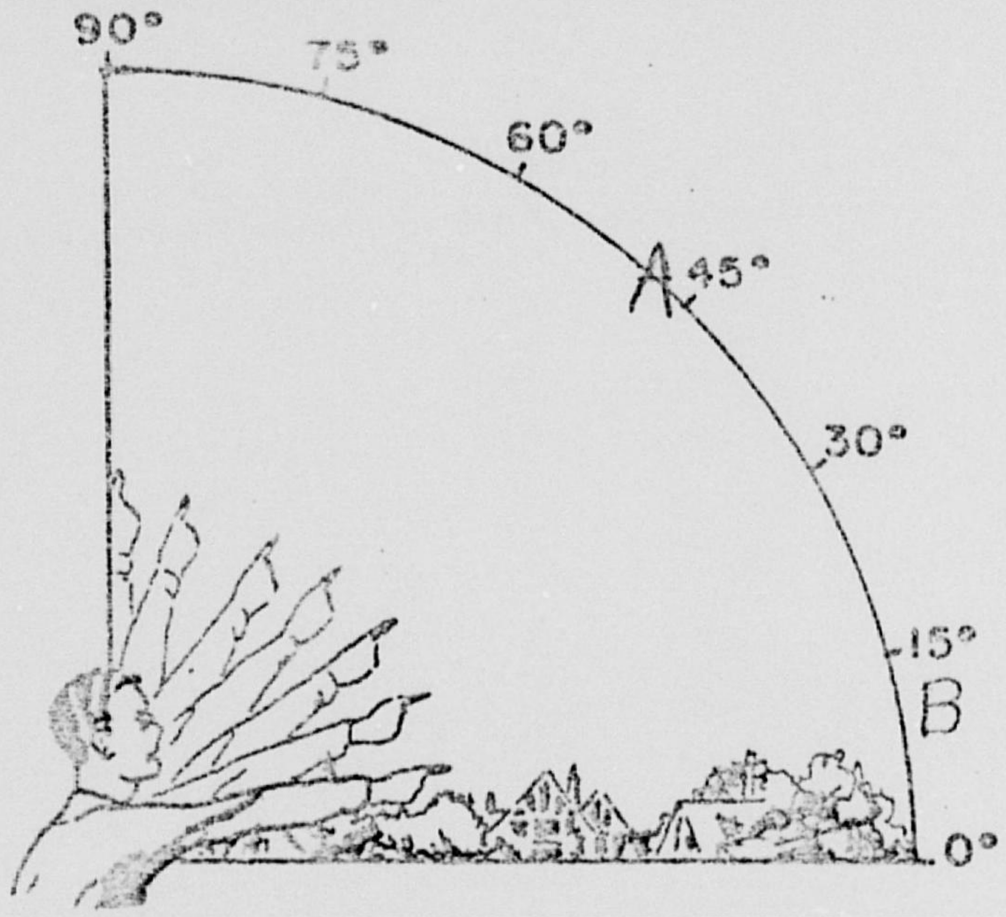
25. Did you observe the object through any of the following?

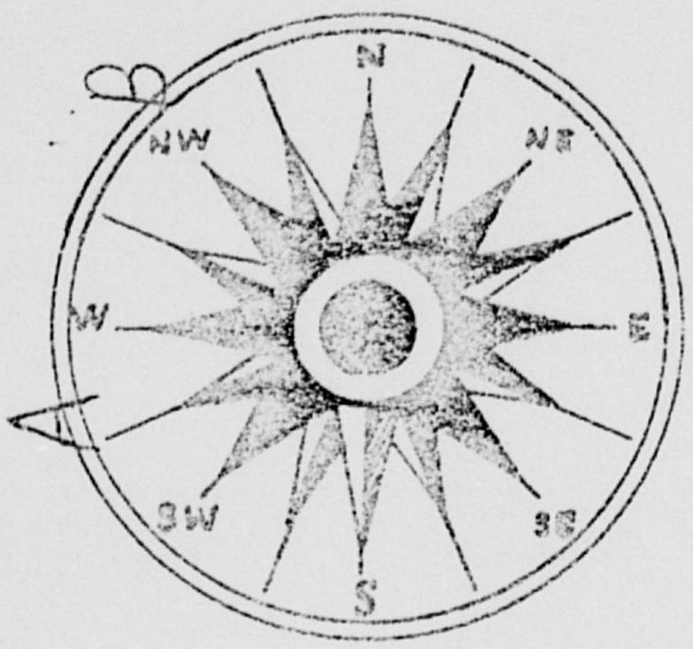
a. Eyeglasses	Yes	(No)	e. Binoculars	(Yes)	(~~No~~) NO
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

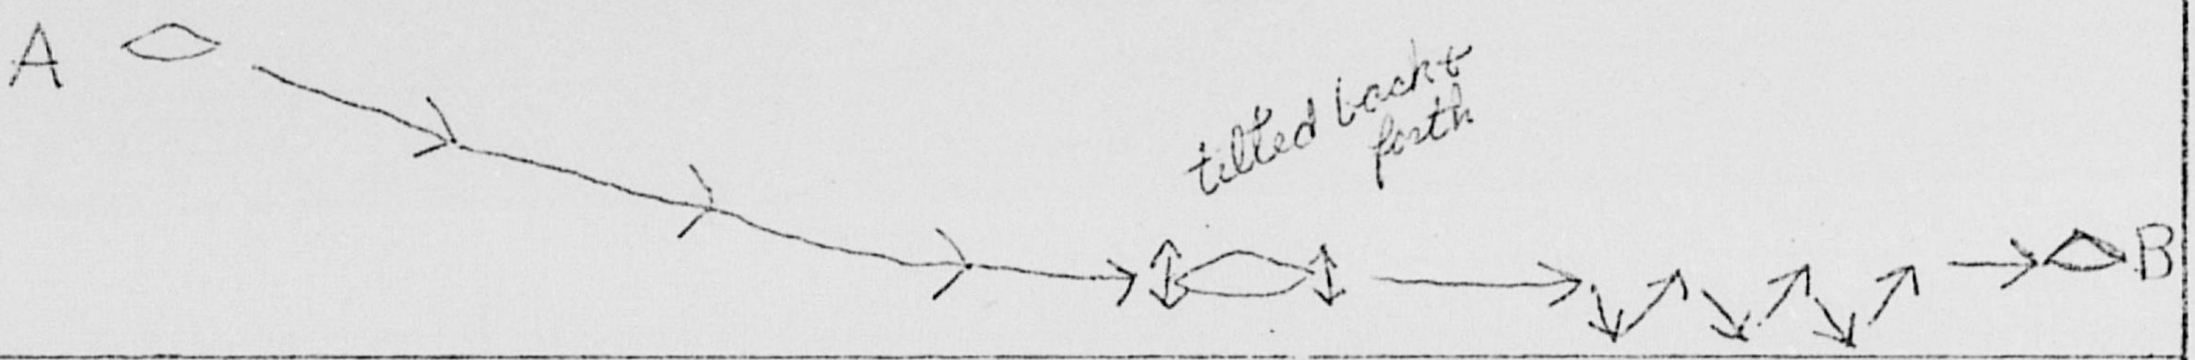
An upside down plate. This would be close but not exactly the same.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.





28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.



29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One) (Yes) No

31.2 Please list their names and addresses:

[redacted] Green Lake

[redacted] Green Lake

[redacted] Green Lake

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) Green Lake (City) ___ (Zone) Wisconsin (State) 54941

TELEPHONE NUMBER [redacted] AGE 17 SEX male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

28 (Day) 4 (Month) 67 (Year)

Mr. [redacted]
Mr. [redacted]
Mr. [redacted]

34. Date you completed this questionnaire: 28 (Day) 5 (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

The object when we first saw appeared as a bright red light. Brighter than others stars. When it got closer and when seen through the binoculars it appeared solid and had clear edges.

We first spotted it in the car but watched the object at [redacted] house. We were in a field across the road from his house
