1. DATE/TIME GROUP [illegible] Jul. 57	2. LOCATION Miles Mills, Ohio [illegible]
3. SOURCE Civilian	10. CONCLUSION INSUFFICIENT DATA
4. NUMBER OF OBJECTS 4 - 5	Two different times the observer was asked to give more information on the sighting but the forms were returned with no further information such as duration of sighting, [illegible]
5. LENGTH OF OBSERVATION Not Reported	11. BRIEF SUMMARY AND ANALYSIS and elevation on disappearance and color of the object is missing.
6. TYPE OF OBSERVATION Ground-Visual	Observer was in his car driving W when he observed 4 or 5 glowing streaks of light going E. The observer described the object as looking like illuminated disconnected telephone wires moving through space. They appeared to be quite low and were moving at a rather high speed.
7. COURSE East	CONCLUSION CONT'D: The sighting is similar to those of satellite decay but SPADATS lists no decays on this date.
8. PHOTOS [illegible] Yes [illegible]	
9. PHYSICAL EVIDENCE [illegible] Yes [illegible]

Wright-Paterson Air Force Base, Ohio.
Gentlemen:

I have been advised by the Air Force Special Investigation Agency in Cleveland to contact your office in order to report a strange sighting made by a friend and myself as we drove west on Cedar Avenue towards Cleveland from Gates Mills, on Tues. July 25. The sighting took place at approx. 11:15 P.M. and we telephoned the Lynhurst police at approx. 11:25 P.M. Although the police listened politely and said it would be reported to the proper agency, I believe it is possible that they did not take us seriously enough to do so. Both of us are very certain that what we saw was no air craft operated by the United States, and that it can not be explained away as some kind of "natural phenomenon."

I am a Ph.D. candidate at the Case-Western Reserve Program of Philosophical Studies. My companion on that night was Mr. [redacted] a graduate student at Case Institute of Technology who will be graduated as a Ph.D. in Chemical Engineering this Sept.

On Tuesday evening we were driving west on Cedar Road at approximately 30 miles an hour. I was driving, and through the windshield I noticed a peculiar light ahead of us and to my left. It first caught my attention because it was much too low to be an airport searchlight, although that is the best analogy I can offer of what I saw at that moment. I did not know until later that Mr. [redacted] had also noticed it while it was still ahead of us. As we came closer, we both realized that it was moving toward us, and as it approached we saw what looked like 4 or 5 streaks of glowing light, perfectly parallel to each other and moving parallel to the road, going east. The best description we could give of the impressions we received at that moment is that it looked somewhat like illuminated disconnected telephone wires moving through space. It wasn't until they were directly alongside of us that we could see it as 4 or 5 distinct glowing objects travelling very fast and in seemingly perfect formation.

The most peculiar aspects of what we saw were: 1. the objects were moving quite low (Mr. [redacted] estimates 30 - 50 feet); 2. they were quite close to, and parallel with, the highway we were driving on; 3. they were traveling in perfect formation, at a rather high speed (although nothing like the speed of a jet plane) and were moving in a definite

direction.

All of this took place within a few seconds, but I have tried to describe as best as I can how it appeared at each successive stage--that is, at the points at which it was ahead of us, along side of us, and passed us. Looking back through the rear window, we were no longer able to see it. The area alongside of the highway over which it was flying was somewhat open and desolate. We did not detect any sounds from the objects, and there were no other cars on the road at that moment. We stopped at a gas station a few minutes later and telephoned the police.

I am reporting this to you in case you have received other reports on that evening and may find this information useful. I believe I have told you all I can remember; but if you should want to contact me I will be at the above address until Friday, July 28. From July 29 until Sept. 9 I can be reached at my home address:

[redacted]
Bayonne, New Jersey 07002

Mr. [redacted] can be reached at the above Cleveland address until Sept.

Yours truly,

[redacted]
