Hq USAF SAFOICC (Mrs. Hunt)

The following is a suggested reply to a letter received from a Mr. [redacted]:

a. Dear Mr. [redacted]

Your letter of 15 April and the chaff which you submitted for analysis has been received by the Air Force. The planes which dropped the chaff in the vicinity of your farm were conducting a special exercise and there is no cause for alarm.

Thank you for your interest in Air Force matters.

FOR THE COMMANDER

ERIC T. de JONCKHEERE, Colonel, USAF
Deputy for Technology and Subsystems

Dayton, Ohio

I am sending 2 amplified radar jammer chaff found on the ground on my farm 4½ miles north NW of Sardis, Ohio, after the passage of small jet planes the night before. Dark objects & small planes. There were dog pointing in my area causing my dog to keep me awake all of the night. I am not connected with any of these and do not know them in this area. I am a Veteran Fighter Pilot.

Respectfully

[redacted]
