PROJECT [illegible]

1. DATE - TIME GROUP 8 Oct 66 Night	2. LOCATION Selfridge AFB, Michigan Multiple
3. SOURCE Civilian	10. CONCLUSION Possible ASTRO (S/P)
4. NUMBER OF OBJECTS Numerous	
5. LENGTH OF OBSERVATION Varied	11. BRIEF SUMMARY AND ANALYSIS Observers have watched many objects in the sky that appeared like stars. The objects are flashing red, green, and white in color. The observers have observed many objects on several sights in a row. The one main witness appears to be unreliable. She is the one who is actually reporting the observations. She even reported that the objects were like stars. The description is consistent with that of an astronomical observation.
6. TYPE OF OBSERVATION Ground Visual	
7. COURSE Varied	
8. PHOTOS ☐ Yes ☒ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No

REPLY TO ATTN OF: 1WCIO

4 November 1966

SUBJECT: UFO Sighting

TO: AFSC (FTD) Wright-Patterson AFB, Ohio 45433

1. The attached correspondence was not forwarded previously because we did not regard the witness as reliable.

2. However, she has telephoned us many times in the past few weeks, and has threatened to write to the President of the United States if we do not "take action."

3. We therefore felt that her letters should be brought to your attention. We feel you have dealt with matters of this nature in the past and could probably advise us on what steps to take, if any, in a case like this.

FOR THE COMMANDER

Mina P Costin

MINA P. COSTIN, Captain, USAF
Chief, Information Division

Oct 12 - Wed - Tom & Dunlich moving

Reddish & green stars -

Oct 13 Thurs - Cloudy evening

Faintly visible moving Giant star

Moon on mirror on wall reflecting

a window about half way around 2° dist

Never saw this before.

No moon outside because I looked as I

got up - as I woke up just then & opened the draperies. No moon again outside when I looked out of both windows

Bel. moon still on the mirror on the wall

Low. / green star not alternately

visible on the grounds across street

at some time.

Oct 14 -

Letter to you - If this keeps up I will be writing a book before I get some help from anyone.

Oct 14 1966
Friday

Gentlemen

I am enclosing my first letter that started last night but if I have to rewrite it I will be too long at it because I'm real ~~tired~~ tired. I can't keep up - My 12 yr old son has been visited sick along with the all happening. So if you can make it out real well I will correct it perhaps later on. I will give the dates of these unusual occurences.

Oct 8 Sat 1966 - First night
Oct 9 Sun 2 o'clock in morning Moon
Oct 9 Sun night Cloudy + rain here I don't remember which day.
Oct 10 Monday cloudy
Oct 11 Tues - 6 stars around my home
Astronary green + white lights

If you wait to long perhaps I will get
confused, at so many things happening I
think I not be able to give them in the
right rotation - Since Jim almost always
it every night then it difficult to keep track
of and I perhaps will not try to keep up
with it if I am too tired. This is
the best I can even right at the moment.
Since my health is not very good I
could'nt stand any harrassment in my
family. I will do the best I can for the
Condition I am working under for each day.

Sincerely Yours

Mrs. [redacted]

[redacted] Telephone.

Important

Oct 14-1966
Friday-

Please Keep it confidential until
it is all checked out. I believe Jim not
here to ask you for an explanation.
I believe Jim here to give you one.
This is not the first phenomenia in
my life - the first occured 33½ yrs ago
& I've not discussed it very much with
any one because of experience of telling it
& seeing incredible disbelief on people's faces.
This can be checked out as I told it
remember where I believe it will help
explain it.

(over)

So you can see by that this is not something I planned for my self or by my self.

Sat night Oct 8 - about 8 °clock or just when it was getting dark my son Tom age 12 was out doors playing with our 2 pups outside the back door in the back yard. He was as he used about to come in when he saw the special looking Star - He called me out & I saw it - it was across my back yard & the whole of my neighbor property and across the street & so from there - So Tom & I followed it and we called on the Phone There neighbors to come & see what they did.

Oct 13-1966

Gentlemen:

I am not filling out your form ✓ because I don't know East from West - North from South - that's the truth -

I am not a star gazer only in awe that most stars have been in the where ever God up there and I never questioned it beyond that. I am not a moon gazer only that I know moonlight on the ground and I love to look out at night & see it on the ground & see the shadows everywhere. The beauty of it all.

The lady in your office told me just to write a letter telling it as best as I can.

As we went back and forth we noticed another to the side of our property doing same only it was green & white alternating lights. [redacted] was feeling well & he was scared so I brought him in to calm him down but every so often he ran to to check on the one that was green & white. It then moved and crossed the street to where it [redacted] remained all night. This is across Briarcliff facing our house. - about 9 o'clock or so my older son Jim came home - he's 25 yrs old & we told him about our evening. He just us Down - He thought we had flipped or something - any way he would going to accept our story - So he went into his room to watch Television -

They are Mr & Mrs. [redacted]

their adress is [redacted]

He is [redacted] the Franklin Fire Dept.

Now we have about 3 1/2 acres & the workmen

have about done some amount — When we stood

by their back door we could see the star

perfectly & it flashed Red & Green and white

I believe on & off & it flickered but it was

very bright & we could see it alternate red the

Green as if it went around. The workmen had

guests & one came out and saw it with us.

We stayed there the longest time and I came

home & called the Franklin Police but they never

came I don't think because I didn't see them.

We left it there & Mrs [redacted] commented

that it looked like it was coming down

So I went out there again to check it and it was still there so I called him + we all 3 went to take a look – the Result we spent the rest of the evening in his room

[redacted] until about 11:30 or 20 watching this one + we saw others + they were very active shooting across true. the position I was in I didn't see the first but the boy did until they reached the tops of the trees then I saw it. There were 3 of them all told that evening in the front. –

At about 11:30 we all went to bed + left them up there. At 2 o'clock I woke up and I believe was a rather unusual noon I looked up to see if the stars were there –

I saw the one still bright, still green what

the moon I will explain at a later time.

Also I can tell you it was very bright - and it

changed shape between 2° dark + perhaps 1/2 hr to

3/4 hr when I returned back to bed. From a

whole full moon to a 1/4 moon but it was

1/4 on the bottom - This may be normal - I don't

know but I do know I've never seen a moon

like it. and I'm 49 3/4 yrs old, Most moons

I've looked at ~~where~~ were not so hard to look at.

I was almost blinded by its light. In fact

I've noticed my eyes have been bothering me from

looking at all these phenomenal things in

the sky. This moon was not smooth Round like

my other moons I have seen. It was Jagged around

the edges - It moves do this - I couldn't know -
then it looked not like a moon but a hanging
ball full of clusters of stars + it twinkled
like Rhinestones would. Thats like diamonds -
Every when it became compressed to a quarter
moon - It had layers of shiny light then I -
found it too hard to look at then I couldn't
really tell you any better what I saw - If
I see more moons like the one then I did
know it is normal for moons & look like this
but if I did then I know this moon was
not the normal moon that you see all the
time -

One more thing -

It was a real bright moon - It let
up the area in my bedroom where my bed is.

Because the moon too was across Briarcliff
& was shining in my bedroom which is at the
far end of the house - It is the master bedroom
& it has 2 large windows - plus a dressing room
facing the back of the house. My bed was in front
of the windows & it lit up that area but
still there were no shadows on the ground as
it always does with a bright moon. Because
I love to watch the shadows on the ground I
noticed there were not any - the ground was
dark but my window was lit up & all
in front of it. I called the Telephone operator &
asked if there was a moon that night as when
we went to bed, there was no moon as far as
anyone could recall. - So the operator couldn't know
the switch board & go to the window so she couldn't tell me.

We can separate planes with white light and red lights as some went by .
We could hear motors from planes.
When they passed the noise was gone too.

2-2-2
"UFO" Reporting Data (continued)

c. MANNER OF OBSERVATION:

(1) Use one or any combination of the following items: Ground-visual, air-visual, ground-electronic, air-electronic. (If electronic, specify type of radar.)

Ground Visual

(2) Statement as to optical aids (telescopes, binoculars, etc.) used and description thereof.

We sure wish we had telescopes, binoculars = it would help.

(3) If the sighting occurred while air-borne, give type of aircraft, identification number, altitude, heading, speed, and home station.

d. TIME AND DATE OF SIGHTING:

(1) Zulu time-date group of sighting around 8 p.m.

(2) Light conditions. (Use one of the following terms: night, day, dawn, dusk.)

Night

e. LOCATION OF OBSERVER(s). Give exact latitude and longitude of each observer, and/or geographical position.

f. IDENTIFYING INFORMATION ON OBSERVER(s):

(1) Civilian - Name, age, mailing address, occupation, and estimate of reliability.

Mrs. Ed[redacted] 49-3/4 years old, sone[redacted] 12 years old, neighbors Mrs. & Mrs. [redacted] and their 25 year old son J[redacted]n [redacted]. Another friend I do not have her name was visiting the [redacted] at the time.

(2) Military - Name, grade, organization, duty and estimate of reliability.

N/A

ADC-1 Cmbt Spt Gp-CDC
Selfridge AFB, Mich.

"UFO" Reporting Data:

a. DESCRIPTION OF THE OBJECT(S):

(1) Shape Stars and the Moon

(2) Size compared to a known object (use one of the following terms: Head of a pin, pea, dime, nickel, quarter, half dollar, silver dollar, baseball, grapefruit, or basketball) held in the hand at about arm's length.

Size Good size (1) star (I'm not any good on size)

(3) Color Red & Green (Green * White - 1 all green (large) some small all green

(4) Number All told - I'd say 25 or so, but they come & go- you cannot count them all.

(5) Formation, if more than one They are all around everywhere here.

(6) Any discernible features or details Moon Very Bright-changed shape Sun. Oct 9, 66.

(7) Tail, trail, or exhaust, including size of same compared to size of object(s)

(8) Sound; if heard, describe sound No Sound

(9) Other pertinent or unusual features Some stand still, others go up and down - some shoot across other tree tops, or out in the sky.

b. DESCRIPTION OF COURSE OF OBJECT(S):

(1) What first called the attention of observer(s) to the object(s)?

1 Green red star - by son [redacted]age 12, at about 8 p.m. or so

(2) Angle or elevation and azimuth of object(s) when first observed.

Up in the sky

(3) Angle or elevation and azimuth of object(s) upon disappearance.

It seemed to be coming down when we left it there & came home.

(4) Description of flight path and maneuvers of object(s).

Name it and they have done it.

(5) How did the object(s) disappear? Instantaneously to the North, etc.)?

Some disappear and re-appear

(6) How long were the objects(s) visible? (Be specific, 5 minutes, 1 Hour, etc. Some are here all night in some spot, or at least I check them out as far as about 4 a.m.
