Having extremely excellent vision would be of great
served to the air force, when not at my job at the
plant. I am firmly convinced that spaceships of
gigantic proportions are of there and have been for
years. also I would suggest building a dummy
space ship and placing it in an isolated area where
it can be observed by the air force. There is a chance
the object or object, may then land.

33. When and to whom did you report that you had seen the object?

_____ Feb _____ 1967 duty officer by Phone.
Day Month Year

34. Date you completed this questionnaire: ____ (Day) 3 (Month) 1967 (Year)

35. **Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.**

Gentlemen:

My greatest regret is that I did not record the other sightings, feeling that they were not of reasonable importance to the Air Force:

However I will be far more discerning in the future and more accurate.

The object which is probably one of a fleet has circled the earth and appeared in the Aspendé Canyon in a matter of minutes.

If I can serve the air force in any segment of national security I'd be honored to serve.
