1. Reference message number 10276, 1530Z/5May1967, the photograph of the UFO sighting in S. Dartmouth, Mass., 30 Apr 1967 is enclosed.

2. Photo was taken at [redacted] S. Dartmouth, Mass. at a approximately 1440Z/30Apr1967.

3. Camera used was a Polaroid Land Camera, Automatic 100, with Polacolor Type 108 film. No filter or stand was used. The camera was held parallel to the ground and pointed towards about 230 degrees relative to true north.

4. Distance from camera to object, as measured on the scene, was approximately 75 feet. The white pole visible behind the object in the original photo, was about 50 feet beyond the object and stands 7½ feet high.

5. Enclosed also is a black and white blow-up of the object, done for the observer by the photo lab of the Morse Twist Drill and Machine Co., New Bedford, Mass.

6. Finally, I have included a topographical map of the area, showing the location of the sighting, and a sketch of the immediate area.

1. PURPOSE: This report serves to answer Work Order Number 67-63 in which Major Quintanilla requested an analysis be made of subject photography to determine the identification of the object in question.

2. ANALYSIS: Upon examination it was found that certain physical characteristics prevailed insofar as the subject was concerned. The object in question had a cylindrical, disc-like base with a superstructure best described as hemispherical in shape. Rising above and encircling the base was a railing-like component with several vertical members which served to support the railing. While the base of the object was metalic in color, the hemispherical center section was colored green and exhibited something of a translucent quality.

3. Based upon source's remarks that the object was approximately 75 feet away and that 50 feet aft of the object was a pole 7.5 feet in height, the following dimensions were arrived at by using a nominal 127mm focal length lens: base diameter, 4.5 feet; base height or thickness, .7 feet; railing height, .33 feet; superstructure height 1.2 feet and superstructure diameter, 2 feet.

4. Other than a dimensional analysis, no function or purpose could be determined for the object.

Dear [redacted]

Reference your recent observation and subsequent photograph of an unidentified flying object (UFO).

Based upon your remarks that the object was approximately 75 feet away and that a pole 7.5 feet in height was 50 feet aft of the object, the following dimensions were arrived at by using a nominal 127 mm focal length lens: basic diameter, 4.5 feet; base height or thickness, 0.7 feet; and dome diameter, 2 feet.

Although we are unable to positively identify the object, the photographic analysis does not support your remarks concerning the size of the object. It appears that the object was actually closer to the camera than 75 feet; thus making the object even smaller.

Inclosed are your original photograph with one enlarged copy.

Thank you for reporting your observation to the Air Force. Your interest in our program is appreciated.

Sincerely,

We were sitting on the front porch of 11959 Indiana at 10:05 p.m. when we sighted an orange pulsating light in the center of a disc shaped object. The object first moved in a southerly direction; then abruptly stoped and moved and stopped again in a northerly direction. It moved in a westerly and returned going SW and began a downward motion. It kept going down until it went out of sight behind an apartment building.

THE PILOT STATED THAT IF AN OBSERVER WERE NOT IN EXACTLY THE RIGHT POSITION TO READ THE SIGN, IT APPEARED AS A RATHER WEIRD SIGHT. SINCE THE OBJECT WAS CONCLUSIVELY IDENTIFIED AND TWO RADIO STATIONS HAD INQUIRED AT TINKER AFB, THE LOCAL OFFICER OF INFORMATION WAS CONTACTED, INFORMED OF THE RESULTS OF THE INVESTIGATION, AND REQUESTED TO RELEASE INFORMATION TO THE LOCAL NEWS MEDIA IN ACCORDANCE WITH AFR 8Ø-17. THIS INFORMATION WAS RELEASED PRIOR TO Ø4ØØZ, 27 APRIL. THE PILOT WAS ASKED TO CONTACT THE TINKER AFB UFO PROJECT OFFICER BEFORE ANY FUTURE FLIGHTS SO WE WOULD BE PREPARED TO ANSWER ANY CALLS DURING THE TIME.
